

LANL named to top government employers list

March 15, 2021

Minority Engineer magazine recently announced its “Top 20 Government Employers,” and Los Alamos National Laboratory was awarded the tenth spot on the list.

Those selected for the list are the top companies and/or government agencies in the country for which readers of the magazine would most prefer to work, or believe provide a positive work environment for engineers who are members of minority groups and diverse cultures.

How were winners determined?

A randomly-selected group of Minority Engineer magazine readers were mailed a survey. Their feedback determined the winners for the winter 2020-21 edition.

Top 20 government employers

1. National Security Agency (NSA)
2. National Aeronautics and Space Administration (NASA)
3. U.S. Department of State (DOS)
